

Advanced Direct Vent Boiler System from **e-f-m** The Finest in AUTOMATIC HEAT **PK 210**

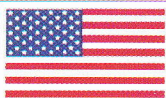

**Our new advanced
design for the
PK 210 features...**

- **Superior Fuel Efficiency**
- **Extraordinary Durability**

For over 75 years, EFM has been manufacturing boilers and furnaces to supply dependable comfort to America's homeowners. When you do something for this long, you naturally begin to master the process. The PK 210 is the latest "PK" line of steel boilers designed for direct vent applications. Improvements include:

- **Wet Base Construction**
- **Horizontal Tubes**
- **A.S.M.E. Construction**
- **Simple Access for Cleaning and Service**
- **Sight Port to View Burner Operation Directly**
- **No Draft Requirements**
- **No Combustion Chamber Required**

STILL MADE WITH PRIDE IN AMERICA

In an era when more and more home heating units or their components are made by foreign manufacturers, EMF Boilers are still made with American quality and pride. Just as EFM products have been for over 75 years.

SPECIAL INSTRUCTIONS:

The PK 210 is offered in a standard configuration suitable for direct vent applications. The PK 210 is also suitable for use with a power gas burner and for chimney installations. Contact your EFM sales person for details.

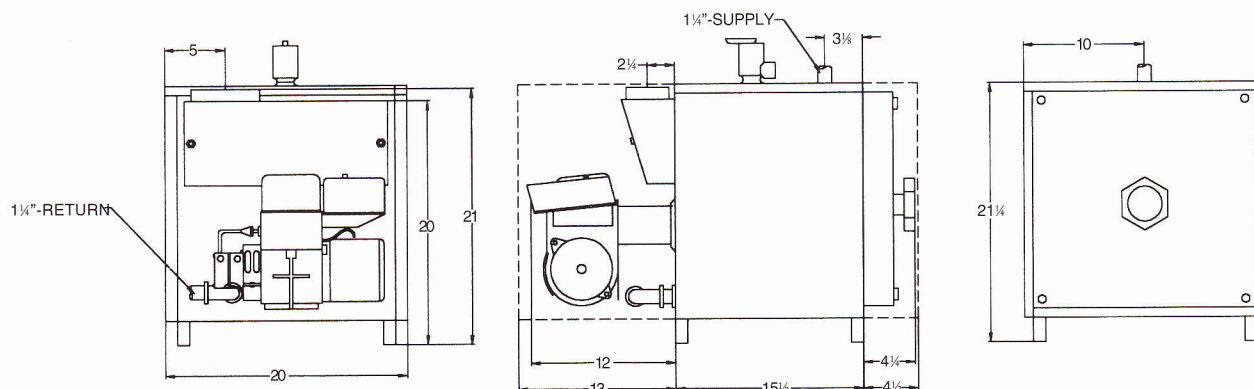

As a direct vent unit, the PK 210 requires special attention to maintaining integrity of the boiler combustion gas containment. For annual or other maintenance if the transfer box and/or smoke hood are removed, use the EFM SEAL MAINTENANCE KIT to reseal the unit and check for leaks.

The PK 210 is assembled and equipped with:

- **Weldment**
- **Beckett AF-II Burner**
- **PTA Gage**
- **Circulator**
- **Insulated Jacket**
- **Aquastat and Immersion Well**
- **Boiler drain**

Options for the PK 210 include equipment for a complete direct vent installation.

DIMENSIONS:

SPECIFICATIONS:

Boiler Model PK 210:		
Nozzle Size	.6 gph	.75 gph
Net Rating	70 mbtuh	90 mbtug
Water Cap.	9 gals.	9 gals.
Weight	245 lbs.	245 lbs.
Tubes	Horizontal	Horizontal
Base	Wet	Wet
Burner	Beckett AF-II	Beckett AF-II
